

Hong Kong University of Science and Technology
Managerial Macroeconomics, ECON 3024, Fall 2018
(course website is accessible through <http://canvas.ust.hk>)

Instructor: Yang Lu (yanglu@ust.hk)

Office Hours: by appointment, LSK 6059

Lecture Time and Location: Tue & Thu 1:30-2:50pm, LSK 1033

Teaching Assistant: Teresa Lau (ectylau@ust.hk)

Office Hours: TBA

Tutorial Time and Location: Wed 12:30-1:20pm, Rm 6573 (Lift 29-30)

Course Description:

This course modifies and extends the standard models studied in introductory macroeconomics course (2123), highlighting the role of expectations in determining the aggregate output, the inflation, and the asset prices.

The course consists of two parts: (A) lectures on the models and their applications on the economics issues such as monetary and fiscal policies, financial crises, and exchange rate policies; and (B) group research projects undertaken by the students to help them understand the models better and practice the skills on problem solving, team-work and presentation. Each part contributes to 50% of the final grade.

Pre-requisites: Econ 2123

Main Textbook:

Blanchard, Macroeconomics, 7th edition (2017), Pearson Education Inc.

Remark: This edition is significantly different from the previous ones. You are strongly advised to purchase it from the bookstore.

Tentative Topics:

1. Monetary policy
2. Phillips curve
3. IS-LM-PC model
4. Exchange rate regimes
5. Financial markets and expectations
6. Financial crisis
7. China's RMB exchange rate
8. Technology progress and unemployment

Depending on our progress, we may or may not cover all these topics.

Suggested Reading: I encourage you to read and watch:

- Economist: <http://www.economist.com>
- TED talks: <http://www.ted.com/talks>

Grading Policy:

Assessment Activities		Weighting		Course ILOs assessed
Midterm exam (Oct 23 in class)		50%		1,2,3
Group research project	Project topic and abstract	0%	50%	4,5,6
	Research plan & reading list	5%		
	Draft term paper	10%		
	Two presentations (+interactions)	20%		
	The term paper	10%		
	Peer evaluation by group-mates	5%		

Remark: Members of the same group will receive the same scores for items under the group research project **except for the peer evaluation score**. The peer evaluation score of individual student will be determined by his/her group-mates.

Important Dates	Activities
Sep 27, 2018 in class	Names of group members due
Oct 9, 2018	Project topic and abstract due
Oct 23, 2018	Midterm exam (based on lecture materials taught in Week 1 to 6)
Oct 28, 2018	Research plan & reading list due
Week 9 (Oct 30 – Nov 1, 2018)	Proposal presentations (15mins) (we will utilize tutorial time if necessary)
Nov 18	Draft term paper due
Week 12-13 (Nov 20 – Nov 29, 2018)	Presentation of research papers (30mins) (we will utilize tutorial time if necessary)
Dec 7, 2018	Term paper due

Detailed Course Policies:

Tutorial: There will be **weekly** tutorial.

It serves three purposes: 1) briefly review materials from ECON2123 on which the current course is based; 2) study practice questions to gain better understanding about the course materials and to acquire data processing skills; 3) host student presentations if there is not enough time in lecture.

Midterm exam: There will be **NO make-up exam** for midterm. If you miss the midterm, your group research project will count for 100% of your grade. In case of grading dispute, with the exception of arithmetic errors, the instructor will handle them. In order to avoid problems associated with self-selection, disputes on individual questions will result in re-grading of the entire problem set or exam by the instructor. The re-graded score will be final and it may be higher or lower than the original one. Requests for re-grading must be submitted in writing to the instructor within one week since the score is first published.

Research group: Please interact with your fellow classmates in the first few weeks to organize yourselves into research groups of 5-6 members. On **Thursday 27 September 2018**, you should submit an index card **in class** with the following information: group name, the names and student IDs of all group members, and the email of the contact person of the group.

Project topic and abstract: Each group needs to decide on a research topic related to Macroeconomics and write a term paper based on **original research**. I will let you know the expectations of a good research-based term paper in the first lecture. **By 11:59pm, Tuesday 9 October 2018**, each group needs to upload a file to the course website **on canvas** with the following information: the chosen research topic and a brief description about what you want to research. The final chosen topic must be approved by Prof. Lu. I will let you know the approval result on Wednesday 10 October 2018. In the case of disapproval, the group must come to see me to discuss possible topics.

Research plan & reading list: After deciding on the topic, each group needs to work out a 2-page research plan including: the specific questions to be answered, why they are interesting, how do you plan to answer these questions, what do you know already and what will you be reading to find out more. A list of reading with full citation including the data source (if applicable) needs to be attached to the research plan. The research plan with the reading list is due **on canvas at 11:59pm, Sunday 28 October 2018**. Every student registered in this course should read **all** the research plans of other groups.

Presentation of research proposal: Each group will take turns to present the research plan **in class during the week of October 29, 2018**. Your exact slot will be decided later. Each group will be given 15 minutes to present and 5 minutes to answer questions from the audience. Each group is expected to actively participate in the presentations of other groups and critically comment on the research plans of other groups.

Draft term paper (soft copy only): Each group should submit the draft term paper **on canvas by 11:59pm, Sunday 18 November 2018**. Every student registered in this course should read **all** the draft term papers of other groups.

Presentation of research paper: Each group will take turns to present their draft term paper **in class during the week of November 19, 2018 and the week of November 26, 2018**. Your exact slot will be decided later. Each group will be given 30 minutes to present and 10 minutes to answer questions from the audience. Each group is expected to actively participate in the presentations of other groups and critically comment on the term papers of other groups.

Final version of term paper (one hard copy and one soft copy): Each group should improve their term paper based on the feedbacks in the presentations. The final version of term paper needs to be submitted **by 11:59pm, Friday 7 December 2018** (the soft copy uploaded on canvas and the hard copy in the 3024 homework box near the general office of the economics department, 6th floor of LSK building). The maximum length of the main text is 3000 words (excluding appendices, references and footnotes). The paper may

include tables, diagrams as appendices. References must be listed at the end of the paper, and footnotes must be inserted at appropriate places.

Important Remark on the final version of term paper: to protect your intellectual property right and to facilitate knowledge accumulation, your term paper will be kept in a paper pool for up to 5 years. Future cohorts of students will have access to the paper pool and your paper will be properly cited if it contributes to their work. If you have any concern on having your paper in the paper pool, please come to see Prof. Lu **before 14 September 2018**. After the deadline 14 September 2018, it is assumed that you have agreed on this policy.

Peer evaluation: At the end of the semester you will be requested to evaluate your group-mates through an online evaluation form according to the following scoring rubric. Any student who does not evaluate each of his/her group-mates will receive **zero** mark for peer evaluation. In other words, to receive your own peer evaluation marks, you must evaluate **each** of your group-mates.

Peer Evaluation Scoring Rubric (Maximum marks: 5)

Category	1/3 marks	1 mark	5/3 marks
Contributions	Rarely provides useful ideas when participating in the group. May refuse to participate.	Sometimes provides useful ideas when participating in the group. A satisfactory group member who does what is required.	Routinely provides useful ideas when participating in the group. A definite leader who contributes a lot of effort.
Quality of Work	Provides work that usually needs to be redone or checked by others to ensure quality.	Provides work that is usually of good quality, but occasionally needs to be redone or checked by others to ensure quality.	Provides work of the highest quality.
Working with others	Rarely listens to, shares with, and supports the efforts of others. Often difficult to communicate with, or not a good team player.	Often listens to, shares with, and supports the efforts of others. But sometimes is not a good team player, or communication is erratic.	Almost always listens to, shares with, and supports the efforts of others. Tries to keep people working together.

Course Intended Learning Outcomes (Course ILOs)

At the end of the semester, you should be able to

- 1) analyze qualitatively and quantitatively macroeconomic problems (PILO #1, 3)
- 2) gather and organize the relevant macroeconomic information for practical situations (PILO # 1, 3)
- 3) evaluate effects of macro shocks and policy changes on firms and industries (PILO #4)
- 4) communicate effectively in oral and written English (PILO #2)
- 5) engage in debates and discussions in a constructive way (PILO #5, 6)
- 6) work collaboratively with team members on research projects (PILO #5)

Implementation of Course ILOs:

Teaching & learning activities	Roles in the course	Course ILOs addressed
Lectures	Learn key concepts, models, and their applications	1,2,3
Tutorials	Review materials of ECON 2123; discuss homework questions and additional practice questions (both analytical and numerical).	1,2,3
Group research projects	Work as a group to identify the research topic, determine the research methodology, carry out the research plan, and communicate the research outcomes in both oral and written English.	4,5,6

Ground Rules:

Mobile phones and any other disturbing electronic devices must be switched to the silent mode. Students are expected to attend all the classes **on time**. If you have to miss some classes due to medical reasons, you are responsible to make it up by self-studying the posted lecture notes and consulting your classmates. **Note that there will be NO review sessions.**

Academic honesty and integrity can never be emphasized enough, and any violation will be seriously punished. Please get familiar with the rules by checking the following website: <http://www.ust.hk/vpaa/integrity/>.

Final Notes:

Student feedback is essential for course improvement. At any time during the semester you are encouraged to give me and/or the TA feedbacks on the lectures and/or the tutorials orally or anonymously (e.g., via campus mail, or slip a note under my office door). End-of-course survey is another excellent way for you to provide detailed feedbacks of the course. Every voice should be heard!
