Topic: How High Technologies Have Reshaped the Securities Industry in the Recent Years

Bio-sketch of Mr. David Tsoi

David Tsoi has over 35 years of experience in the IT industry, of which he has spent more than 27 years in developing mission critical systems for stock exchanges in Hong Kong, Shanghai and India. He has worked as project manager and system architect in projects developing trading systems, clearing & settlement systems, depository systems and other related systems in the securities industry.

Synopsis of the talk:

High Frequency Trading (HFT) has gained a lot of popularity in well-developed securities markets in the recent years and there is still no sign that the growth in popularity has subsided. This talk explores the background of this new development and the technologies involved. It also explores how it is affecting markets in Hong Kong and nearby markets.

All are welcome!
