## + Speakers

**Raymond Chan** has over 18 years of IT and IT auditing experience in banking and healthcare sectors. He is currently an IT Audit Manger with Hospital Authority. In the professional front, he is Relationship Director of Information Systems Audit and Control Association (ISACA), Hong Kong Chapter. Raymond holds an MSc, as well as CISA, CISM, CMA, CIA, CFE professional designations.

**Yvonne Fung** is a BBA(IS) graduate from HKUST. She is Manager in PricewaterhouseCoopers Systems & Process Assurance practice with 7 years of experience in Information Security Consulting. She has extensive experience in e-business infrastructure security assessment for major financial institutions, regulatory bodies (including the SFC and HKMA), government bureaus and departments and multinational companies. She has worked on a significant number of projects (as both a project manager and senior specialist consultant) that involved reviewing the security of large and complex Internet and e-business application systems, including Internet banking systems, Public Key Infrastructure (PKI), the Hong Kong Smart Identity Card System (SMARTICS), and Certificate Authority operations. She was also the key trainer of a recent advanced security training program designed for Systems and Process Assurance specialists and project managers in Hong Kong, China and various PwC offices across Asia.

**Belina Yip** is a 97 BBA(IS) and 2005 MBA graduate from HKUST. She started her career as an IT Audit Coordinator for Grant Thornton. She then joined a consulting firm to provide training and sales support for the audit softwares that the company carried and was later appointed as a director for the company. She then worked in Germany for an Automobile company for two years. She returned to Hong Kong right after SARS and was appointed as a business development director for a Canadian software company. She is currently a Supervising Consultant for Focus Strategic Group Inc. working on SOX compliance and IT Audit projects.
